EDUCATION

Digital Innovation & Mangement, IT-University
AUG 2015 - JUN 2017

By completing Digital Innovation & Management, I have acquired knowledge, skills and tools to understand and handle digital transformation processes, which can be complex and chaotic in different organisations.

Master Thesis: Blockchain in supply chain

I wrote my master thesis in collaboration with COOP Trading, where I examined the possibilities for implementing blockchain as part of COOP Trading's supply chain in terms of increased product traceability.

The product of the thesis was a mapping of internal and external challenges for an implementation, the possibilities for increased traceability, documentation sharing and a theoretical discussion of the aspect of trust.

Business Studies & Psychology, Roskilde University
AUG 2011 - DEC 2014

In addition to massive amounts of project- and group work, my partner and I developed a new experience design and business model for wine tasting and received the highest grade for this BA assignment.

Gymnasium, VUF
AUG 2009 - JUN 2011

Electrician Apprentice, Hamlet Hillerød
JUL 2001 - DEC 2004

IT

- Windows og Mac
- Microsoft Office
- SPSS
- Gephi
- Tableau
- Power BI
- Google Analytics
- Wordpress
- BPMN
- Lucidchart
- Jira og Confluence
- HTML og CSS
- Microsoft HoloLens (AR)

VOLUNTEER

- Football coach
- CPH:PIX
- Red cross
- Roskilde Festival
- Tutor

INTERESTS

I love every aspect of seeing things grow. Also in the kitchen. Moreover, I am a football nerd but I have also thrown myself into projects like driving across India in a Tuk Tuk or walking 760 km of the Camino.

WORK EXPERIENCE

Data Analyst, Coinify

OCT 2018 - NU

As a link between IT and the business, I pull sets of data, analyse it and visualise it using SQL, Excel and Power BI, which drive new business opportunities.

Innovation Consultant, Copenhagen FinTech

FEB 2018 - JUL 2018

As an innovation consultant, I completed applications for public funding within Blockchain, AI and Cyber Security, examined new business models for Copenhagen FinTech as well as on-boarding of partners, sponsors and members.

Project Coordinator,

Blockchain Lab for Open Collaboration (BLOC)

JUN 2017 - JAN 2018

At the tech start-up company BLOC, I developed Proof of Concepts in the maritime sector, facilitated and executed workshops, held presentations and was project-lead on a funding application for a blockchain project which resulted in a grant of 4.5 million DKK.

Project Assistant, aety.io

SEP 2016 - JUN 2017

As part of a startup I held courses on the agile Atlassian platform for project and task management within SCRUM and was responsible for analysing stats with Google Analytics.

Bike Me Up, Musik i Lejet

MAR 2016 - FEB 2017

As the trains lack space for bikes, I saw a business opportunity, which was an alternative. I handled everything myself - from accounting to logistics.

Housing Assistant, DIS (Study Abroad in Scandinavia)

AUG 2011 - DEC 2015

Electrician

JAN 2002 - AUG 2011

KWH, Glenco, Carl Chr. & Co, EL:CON, MTHøjgaard (Gibraltar)
